## NetLink™ Access Products

# **Network Termination Unit**

**Model 2701** 

The Patton Model 2701 NTU terminates E1 and Fractional E1 services and provides conversion to V.35, X.21, EIA-530 and 10Base-T Ethernet.

# **Connect to Any Terminal Interface**

Smooth clock V.35, X.21, EIA-530, and 10Base-T Ethernet interfaces

### **Connect at Any Speed**

Select nx64 data channels, or 2-Mbps Clear Channel

#### Supports 75- or 120-0hm E1 Lines

Get both BNC and RJ-48C connectors on X.21 and Ethernet versions

#### **Eliminate Routers**

Bridge Ethernet across the WAN using industry standard PPP/BCP

#### **Standalone or Rack Solutions**

Available in desktop and high density SNMP managed racks

#### **Power It Anywhere**

Universal input AC (100–240V) and -48 VDC power supply options

ne of the smallest and most economical NTUs available, the Model 2701 is designed with features usually found in more expensive units: flexible clocking modes, AMI/HDB3 coding, V.52/V.54 diagnostics, and user-selectable nx64 kbps data rates.

The Model 2701 series terminates E1/FE1 services for all nx64 kbps to 2.048 Mbps rates and connects to a router, FRAD, CODEC, or LAN with V.35, X.21, EIA-530, or 10Base-T interfaces. Front panel LEDs and switches allow for instant diagnostics and service monitoring. Convenient DIP switch-

es support quick and concise configuration of your E1 termination. AC or DC power options make installing the Model 2701 into your network infrastructure a snap. Built for universal mounting, the Model 2701 comes in three distinct flavors covering desktop installation, wall mount, DIN rail mount (optional kit), and telco rack mount. You can now take your E1 anywhere!

The wide variety of features, compact size, and low price make Patton's E1 NTUs the right solution for your next network challenge.

Visit <u>www.patton.com</u> for more information.

Ruggedized industrial version is available with the same features and interfaces as the standalone version

# Why use our E1 NTUs?

Key Features	Benefits/Advantages
Supports full 2 Mbps or nx64 kbps	E1 service flexibility. Pay only for the data you use.
V.35, X.21, EIA-530, or 10Base-T Interfaces	Flexible interface options mean the Model 2701R will easily connect to your network
Built-in V.54/V.52-compliant diagnostics. Responds to CO initiated loops	Diagnose problems on the spot, thereby ensuring network reliability and up-time
Available in DIN, wall mount, desktop, or high density SNMP managed racks	Higher density in smaller spaces with command and control over your network
100–240 VAC or –48 VDC power options	Universal power supply options make installing the Model 2701R into your network infrastructure a <i>snap!</i>

The model 2701's price, variety of interfaces and features make it the right solution for your E1 network!
